Unveil utility plan

Sewer, water bonds sought

Approval, mostly enthusiastic, was given Tuesday night to a \$3,150,000 sewerage, water and gas construction program for Bay St. Louis by over 50 persons representing civic, fraternal, religious and business organizations at a meeting at Bay-Waveland Yacht Club.

With no apparent dissent all said they would try to have their organizations before Jan. 20 give endorsement to the program, which involves a \$3,000,000 revenue bond issue. The other \$150,000 would be a federal grant for water pollution control from the public health service.

In presenting the proposed solution for the city's biggest headache Eugene H. Owen of Owen and White, Inc., Baton Rouge consulting engineers, said

it was a "practicable, feasible and sound plan" that would provide Bay St. Louis with these utility system "second to none and will permit the city to continue to grow and to realize its growth potential".

The sewerage system proposed by Owen and White, Inc., as well as W. E. Johnson, Jackson consulting engineer who has frequently done work for the city, would be a gravity system with 40 miles of sewerage pipe and two 50 acre oxidation ponds or lagoons. Cost for this project, most needed of the three, is estimated at \$2,400,000 and it would serve all but "less than 20" houses in Bay St. Louis.

Improvements to the water system proposed include laying 44,000 feet of 8 inch mains (the city now has only 2,050 feet), 60,510 feet of 6 inch mains, doubling the present 65 fire hydrants, and constructing two 250,000 gallon elevated storage tanks. Doing this, according to the engineers, will provide water throughout the city at sufficient pressure and in sufficient amount to raise the city's fire insurance rating from class 9 to 8 and, with some other improvements such as a larger fire department, probably to class 7. This work is estimated to cost \$710,000.

The gas system will come in for only \$200,000 in improvements, mostly from replacing an estimated 16 miles of the 46 miles of mains now in use.

Except for a 1/2 cent increase in sales tax the whole \$3 million plus program will be paid by utility revenues. No full faith and credit bonds of Bay St. Louis are involved in the plan. Essential to the proposal is a metered water system since the sewerage charge will be 50 percent of the cost of water used.

As proposed, the water rate, instead of the current flat charge per year, will be comparable to that of other communities in the area with a \$2 per month minimum. Gas rates, if the plan is adopted, will be the same as those charged by United Gas in south Mississippi where it is the retailer for 90 per cent of the municipalities. For the small user this will mean a negligible increase but as much as 25 to 26 per cent for major consumers, according to the engineers.

The increase in cost of water is more difficult to state with preciseness, according to Owen, because on a metered system people don't waste as much water. This, he said, was the "most unpopular aspect" of the engineers' recommendation. On the assumption that the per capita water consumption in Bay St. Louis would be reduced to the national average of about 100 gallons a day from its present 375 plus, the engineer estimated that the average family would pay \$3.20

Echo plans series on impact study

First of a series of articles will appear in next week's issue of the Sea Coast Echo on the report by the Bureau of Business and Economic Research of the University of Southern Mississippi on an Assessment of Actual and Planned Resources of Selected Urban Areas with the Mississippi Test Facility Economic Impact Area.

The study was conducted last summer by the bureau under contract with the National Aeronautics and Space Administration. Selected urban areas are Bay St. Louis, Waveland, Pange Christian, Long Beach, Gulfport, Piquette and Stidell, La.

It indicates that the more or less enduring economic impact of the test facility on these areas will be pervasive and recommends certain plans of action now to insure an adequate amount of so-called collective goods will be available by 1968.

There will be no special services at the First Baptist or First Presbyterian Churches.

MTO men back, confabs continue

The 80 employees of Warrior Constructors, Inc., contractors for the bascule bridge and laboratory and engineering building at Mississippi Test Operations, who walked off the job last Wednesday returned to work Monday morning while negotiations continued in Biloxi with the Federal Mediation Service in charge.

R. B. Taylor of the New Orleans office of the mediation service declined to discuss the nature of trouble which evoked the work stoppage until a formal announcement can be made on its settlement.

He arrived in Biloxi last Thursday and opened the talks on the walk out which halted almost \$5 million worth of work. A return-to-work agreement was reached Friday and the men have

been back at their jobs on the test site since Monday. As it turned out with the heavy rain Thursday and Friday construction was suspended anyway.

Negotiations resumed Tuesday among officials of the Building Trades Council of Gulfport, the Construction Industry Assn., representatives of the Corps of Engineers from Mobile and NASA from Huntsville, Ala., along with Taylor.

Meanwhile last construction bid opening of the year is scheduled at the Engineers' office in Mobile Monday on the estimated \$7 million canal lock project. On Jan. 7 the Corps will open bids on the booster storage facility, RP-L dock and marine terminal.

Bids scheduled for Dec. 10 on the Saturn dual test stand substructure have been postponed indefinitely but indications are the project will be reinstated as soon as NASA funds for fiscal 1964 are received. They are expected to come through shortly.

Leavell and Kiewit contractors for three major jobs at MTO, are already on location for the Saturn second stage test stand and will start in the immediate future on the central control and data handling center along with the data acquisition building.

Present plans provide for work to be halted only on Christmas and New Year's Days.

HANCOCK TOPS QUOTA

With savings bond sales totaling \$83,122 through November, Hancock County became one of six Mississippi counties to exceed its quota. The others were Clay, Grenada, Harrison, Newton and Pontotoc. Andy J. Becker is drive chairman for the county.

Bay traffic accidents keep police force busy

Approximately \$850 property damage but no injuries resulted from two traffic accidents during the past seven days, city police chief Latham Garriga reported. All drivers are local residents.

At 6:30 p.m. Friday a 1950 Plymouth driven by W. G. Frieron going west on Main Street hit a parked 1962 Chevrolet owned by W. J. Lafontaine, Jr., causing approximately \$400 damage to the Chevrolet while the Plymouth was a total loss Garriga estimated. Assisting in the investigation was city patrolman Robert Goodsell.

In another accident Friday a sign on Main and Tauline Streets owned by Earl Ramond was damaged by a 1962 International trailer truck owned by Cook Manufacturing Co. and driven by Charlie Dick of Cleveland, Tenn. Dick was released after furnishing proof of insurance to cover the damage.

At 11:40 a.m. Monday Joseph W. Sells, driving a 1959 Chevrolet pick-up truck and Betty Negand, who was driving a 1954 Chevrolet sedan collided at Central Avenue and Ballentine Street causing approximately \$250 damage to the Negand car and \$150 to Sells'. The Negand car was traveling north on Central Avenue and Sells east on Ballentine Street, having just crossed the railroad tracks, Garriga said. Both will be tried in mayor's court Friday on charges of reckless driving.

Colder due 1st freeze chills area

The weather man staged a winter preview in Hancock County in the last week, dumping more than four inches of rain on the area in four days, then sending temperatures below freezing for three more days.

And there's no relief from the cold in sight from the forecast, according to the U. S. Weather Bureau at Mississippi Test Operations.

Lowest reading of the current freeze was Tuesday morning, Dec. 17, when the station recorded 25 degrees. First sub-freezing weather was recorded Sunday morning when the low was 27 degrees but Monday the mercury only got down to 33. Wednesday it was 29 and today's forecast was 26 to 30. With a mass of Arctic weather moving south across the center of the nation the bureau staff is anticipating more and probably colder weather for several days longer.

Meanwhile Bay St. Louis' natural gas division ran into pressure problems as the valves on the regulator went out and the manufacturer in California shipped the wrong parts for replacement. The regulator is being operated manually until repairs are completed and a representative of the company was due here Wednesday afternoon to work on the problem, according to City Commissioner of Utilities J.

Jaycees seek DSA winner

Bay St. Louis Jaycees will have their annual distinguished service award and bosses' night banquet Saturday, Jan. 18, at Bay-Waveland Yacht Club.

Semi-annual installation of new officers and presentation of Jaycee awards also will take place at the banquet.

The distinguished service award honors the young man between 21 and 35 years of age who has been outstanding in service to the community.

The bosses' night program is designed to foster better understanding of the Jaycee organization and how it benefits employers. The two events will kick off local observance of National Jaycee Week.

Donald J. Ladner is DSA chairman while James Hverling is in charge of bosses' night and Lee Choppin is Jaycee Week chairman.

New officers are to be elected at tonight's meeting.

Mrs. Bordages reveals red velvet cake recipe

Ever since Mrs. Ruble Bor-
dages of Lakeshore served red
velvet cake at a soical two Sun-
days ago at Clermont Harbor
Methodist Church she's been de-
seigned with requests for the re-

Here's how she makes it:
Cream 1/2 cup shortening,
1 1/2 cups sugar, 2 eggs; sift
three times 2 cups flour, 1 tsp.
coco, 1/2 tsp. salt; add 1 cup
buttermilk, 1 tsp. vanilla, 2 oz.
red food coloring and beat well;
dissolve in cup 1 tsp. vinegar
and 1 tsp. soda and add to mix-
ture. Bake in two eight-inch layer
pans at 350 degree oven 30 to
35 minutes.

For the icing cook until thick
on slow flame until it is like a
pudding 1 cup milk, 1/4 cup flour,
dash salt, set to cool. Cream 1/2
cup shortening, one stick also,
1 cup sugar, 1 tsp. vanilla, add
pudding, beat until it is smooth
and real thick, put on cake with
fresh or canned cocoanut. Keep
refrigerated.

The church social, incidentally,
took place after Mrs. Bordages'
son, Rev. Harold Bordages of
Bogue Chitto, appeared as
guest preacher.

caise Tigers in BHS win

The score tied and eight seconds to go, Bay High's Charles Necaise, brother of state champion Douglas (Spiker) Necaise, hit the basket for two points to give the Tigers a 61-59 win over Pass Christian Friday night in the Tiger gym.

It was Friday the 13th, a lucky night for Bay High as they took a triple header from the Pirates, the Tigerettes winning 45-43 and the junior varsity 29-25.

The Tigers took a 23-13 lead in the first quarter and held a comfortable margin at halftime 37-28 and the third 55-45 but the Pirates made a desperate effort in the final scoring 14 to the Tigers 4 when Necaise pulled the game to the full with his winning shot.

Larry Johnson got 23 points, Leroy Luke 18, Necaise 9, Larry Johnson 18, Moss Maurigi 18, For Pass Christian Martin Lasher 18, 19, 20, 21, Brigeron 14, Wayne Mora 12 and For Hill Lasher 12 each.

Hawks top MP With Notre Dame in Dimes play

Hancock North Central, defending champions in the annual Biloxi March of Dimes Invitational Tournament and winners of the annual Gulfport Invitational last week, won its 11th straight game of the season beating Moss Point 72-47 Tuesday night in the first game of the Biloxi tourney. The Hawks are scheduled to return to the fray tonight and are favored to be in the finals Saturday.

Moss Point, led by Joe Ballou who racked up 24 points, took a first quarter lead, 16-15 but the Hawks roared back using their devastating full court press to dominate the next three 23-9, 17-11 and 17-11.

Brothers Berlin and Wendall Lasher made 29 and 20 points respectively.

Rocks split pair

St. Stanislaus split a double-header with Notre Dame of Biloxi Monday night in the Rockachaw gym, the varsity losing 53-60 and the junior varsity winning the opener 53-43. It was a Mississippi Catholic Conference contest.

The Rocks were holding their own until the third period when Notre Dame applied the pressure to take a 16-point lead which could not be overcome. First period score was 16-14, Notre Dame; halftime 28-26 and at the end of the third 49-33. The Rocks' final quarter rally fell short but they took the quarter 20-11.

The junior Rocks overcame a 5-10 first quarter lead by taking the next three 12-8, 16-12 and 20-14.

High scorers for the varsity were Dominick Scaffidi 24 on 12 field goals and Ned Heath 11. For Notre Dame, Sam Vichello 25 and Henry Dick 13. Junior varsity, Phillip Warner 16, Jeffrey Waller 15 and Michael Lovisa 7. Notre Dame Doug Auglads 10 and Mike Bertucci 9.

Tonight the Rockchaws travel to Piquette for a double header. Monday night they go to New Orleans to play Benjamin Franklin High at 4 p.m. and will be at home next Friday at 3 p.m. to Franklin.

Junior show tri color goes to Nancy Swords

Nancy Swords' interpretation of a Christmas arrangement for a girls' room won for her the tri-color in the annual flower show given by the Bay High junior garden club last Friday afternoon in the home economics department of the school.

Judging the event which drew more than 50 entries were Mrs. A. G. Dantagnan, Mrs. Ola Moran and Mrs. Haverd Burleigh. Besides Nancy's blue ribbon in the girls' room class, Lorraine de Montuozin won a red ribbon, Dale Russell a yellow while honorable mention went to Martha Rutherford and Dottie Netto.

Dale Russell captured two blues—in living room arrangements and on the religious motif. Nancy was second in the living room group and Lorraine was

third while honorable mention went to Donna Ward, Sarah McFarland, Jo Ann Sauter, Clarine Hayward, Carol Ann Smith, Pam Pike and Becky Adams.

Nancy also was second in the religious division and Clarine Hayward was third with honorable mention going to Marilyn Lamer and Kathleen Moloney. Martha Rutherford was the blue ribbon winner in kitchen arrangements with Nancy second, Dale third and Kathleen Maloney.

NOEL

LEO MORAN
Standard Service Station
300 WASHINGTON ST.

The first day of Christmas My True Love gave to Me tra la la, la, etc. etc. where, we've finally been bitten by the yule bug and not one day too soon! Although the weather is unspeakable, a freezing drizzle whipped about by a blustery wind, leaden skies hover depressingly overhead and the few passers-by wear plum countenances, we refuse to be affected!

You can find it all here

It's almost Christmas and we are just about ready for the happy holiday of the season which counts for the cheerful frame of mind. No doubt, we are really glad at the ease with which the usually burdensome chore of Christmas shopping was accomplished. With one small exception, we put off exactly the gift we wanted for everyone on our list at the last minute, just as we did last year. No doubt, it was a miserable waste of time and money in lines or traffic jams, most gifts were beautifully wrapped free and the task was accomplished in a matter of a very few hours. Don't forget, our stores are remaining open Wednesday afternoon and Friday morning to allow you to pick up last minute items. Oh, and a almost forgot, we found many articles priced several dollars lower here than a visit to the New Orleans papers!

Party time is here

Fun and appearances this winter will be the partying-list Christmas. In years past, Christmas parties got off to a good start with a real whine on Saturday night, which was also the date of the St. Charles Club's annual fête.

Another gay gathering took place at the Broadwater Beach where the Hotel and Hotel Owners' Assn. entertained. A large group from the Bay and environs enjoyed fabulous food and dancing to an excellent band. Some of these include: Fred and George George, Carmen and Cliff Piazza, Marie and Arnold Wolfe, Eunice Ladner, Adele Parks and Carl Teston. At another table were Mr. and Mrs. Eugene Rinehart, owners of the Holiday Inn Motel, Ruth and Fred Curren, the Owen family, St. Millers and Max L. Linschmeider. City officials also attended: J. A. He and John S. Seaford, Ella Faver and Buddy Dufort, Jean and Johnny Longo and Lillian and Al Grass. Here in this group.

Little Danny and James Page, ages 5 and 6 respectively arrived here from Germany via plane last week. They will stay with their grandparents, Mr. and Mrs. William Schwartz while their mother remains with their father, James C. Page, who is still in critical condition following an automobile accident which occurred in Germany several weeks ago.

Polly Fagen was forced to cancel her cocktail party planned Saturday in honor of her mother, Mrs. Spencer Lucas of Pass-a-Riggle, Fla., due to the fact that Mrs. Lucas was stricken with an attack of virus on her arrival in the Crescent City.

Mr. and Mrs. Ray Gordon, Mr. and Mrs. Roland Weston, Mrs. Ted Robin, Margaret Shadon and Ada Whitely were among those from the Bay attending last Wednesday's matinee of How to Succeed in Business Without Really Trying.

Hilda and Dan Byers cut short their Treasure Island, Fla., vacation to return to their Beach Vista home. They said it was colder in the Sunshine than in the Magnolia state!

More travellers return. Nettie and Grady Riggs are back in Pass Christian after a trip to Chattanooga, Tenn. where they visited their daughter who has been ill and to the Carolines.

Our nomination for the fastest and most decorated knitter in town goes to Inger Phillips. Every time we see her she's finished one sweater and started on another!

From atop Mt. Fiji

His many local friends will be happy to hear the former Echo reporter Elmore Povall, now Lt. Roy Povall, is still successfully pursuing his Naval career. He's stationed in Japan and has made it his business to climb Mt. Fiji. He completed the feat in August when the temperature was 85 degrees at the base and 10 on the summit. Wonder if our boy remembers another precarious journey one dark night over the L and N railroad bridge?

Joe Viguerie is entitled to serve us one dish of black crow for our recent boo boo in giving his wife Pat's maiden name when listing guests at Peggy and Floyd Hepting's big party.

Smeloise advises

Window washing is a chore no one enjoys and it's usually undertaken as part of holiday housecleaning. Here's an idea that will cut the task in half and give your home a festive appearance at the same time. Coat all windows with a thick covering of Bon Ami. Let it dry. Then, don't bother to wipe it off. Just take a pencil eraser covered with a scrap of material and outline Santa Clauses, Christmas trees, snowflake designs, or better yet, let the kids do it. It will keep them out of your hair for a while. If it looks too bad, a cloth will remove every trace, and the windows will shine. If the effect is at all artistic, leave it as is until you're ready to remove decorations. Take down the tree, etc. After the hectic rush you can leisurely wipe away all traces and once again you'll have sparkling panes. Note: Unlike the real Heloise, we refuse to try any of these suggestions... they might not work, so if anyone actually tries some of these hints, please let us know the results!

The west end of our county is apparently headed for nation wide publicity. A crew from Life magazine including reporter Don Daly spent two weeks in Logtown photographing this area and effects of NASA enforced evacuation.
